WHAT IS THE TORONTO CAMPUS P&F?
Our P&F is a voluntary parent and community group which provides an open and transparent forum for discussion and involvement regarding the school learning community.

The P&F provides opportunities for parents, guardians, friends and the wider community to connect with each other and network in a social and educational capacity with the focus of providing support to and for the students, families and teaching staff of the school.

THE P&F PROVIDES PARENTS WITH A VALUABLE OPPORTUNITY TO:
• Be involved in the Campus activities.
• Be informed about and provide input into various school activities, policies and procedures;
• Support wherever possible the acquisition / improvement of various equipment, facilities and resources for continued improvement of the educational and social environment for students and educators.
• Generally, have a voice in what is happening at the campus. We will provide a parent perspective on school life to the school executive, enabling a collective voice to be heard.

It is our vision to develop a stronger learning community through a connected and informed learning community.

Supporting and empowering students, their families and their teachers underpins our vision. We want to see our school grow into a vibrant, engaging, supportive and open learning community.

WE AIM TO:
* Support the Principal, Campus Coordinator and staff in the development of a learning community that upholds and reflects the values and Christian ethos of the school.
* Positively and transparently participate in decisions and development regarding matters and policies relevant to the wider school learning community.
* Listen to, support and act on the school community’s aspirations for the future and its goals.
* Identify topics of interest and need relevant to the school learning community and offer support where appropriate.
* Value, support and empower all students and families in their learning journey, experience and involvement at the Campus.
* Liaise with members of the school and wider community as required in promoting a positive image of the school learning community.
INVolVEMENT and ACTIVITIES
As well as the P&F Leadership team (executive), there are a number of sub committees that you may like to consider joining or supporting and your contribution would be most welcome.

Currently we have the following sub committees in operation:
* Event and Social Planning Committee - responsible for planning involvement at all major events and get togethers.
* Garden support - Responsible for supporting Lyle Dury in planning and maintaining the garden and assisting with student groups when in the garden.

All sub committees are overseen by the executive.

Activities the P&F undertake will align with one or more of the following;

Develop a community spirit - with a Christian ethos
Support and work in partnership with Principal and staff
Participate in decision making
Promote interaction between home and school, parents and teachers
Encourage parent participation in teaching and learning activities and school life
Assist parents to appreciate teaching and learning programs
Promote the School in the wider community
Create a forum for discussion
Assist in providing resources to the school when necessary
Planning and organising of functions approved by a P & F Meeting and the Principal including fundraising opportunities.
Work with school council and administration in pursuit of common goals – harmony
